Extract from the Minutes of the Final Meeting of the Board of Managers of the Woman's Central Association of Relief.

"The Final Meeting of the Board of Managers of the Woman's Central Association of Relief was held at No. 24

Cooper Union, on Friday afternoon, July 7th, 1865.

Present.—Mrs. Hamilton Fish, Mrs. Cyrus W. Field, Mrs. W. P. Griffin, Mrs. Curtis, Miss Collins, Miss Schuyler, Miss Stevens, Miss Detmold, Dr. Bellows, Mr. Howard Potter, Dr. W. H. Draper, Mr. Wm. E. Dodge, Jr., Col. Nott, and Mr. S. W. Bridgham.

Also, Mrs. R. M. Blatchford, and the Misses Blackwell, M. D., former members of the Board; Miss G. B. Schuyler, Associate Manager, and Mr. Jno. S. Blatchford, General Secretary U. S. Sanitary Commission.

Dr. Bellows in the Chair. Mr. Bridgham, Secretary.

The Minutes of the last meeting were read and approved.

The Chairmen of the several Committees presented their reports for the month of June, which were accepted and ordered on file."

"It being apparent that contributions from Soldiers' Aid Societies must continue to come in for some time, notwithstanding the notice given of the intention to close this office on the 4th inst., it was therefore Voted:—That the Supply Department be closed from this date, and that all further contributions be received and acknowledged by the Sanitary Commission."

* * * * * * * * * *

"The Fourth Annual and Final Report of the Association, prepared by the Special Committee appointed for that purpose at the last meeting, was read, accepted, and referred back to the same Committee for publication."

"Resolved, That the Chairmen of the several Committees, with the Secretary and Treasurer, be constituted a Committee to receive the Records, and prepare a History of the Woman's Central Association of Relief, with power to add to their number from members of the Board."

The Chairman read the Farewell Address of the Sanitary Commission to the Branches and Aid Societies.

The following Resolutions were then unanimously adopted, and ordered to be published in the Sanitary Commission Bulletin and Final Report.

Resolved, That the Woman's Central Association of Relief cannot dissolve without expressing its sense of the value and satisfaction of its connection with the U. S. Sanitary Commission, whose confidence, guidance and support it has enjoyed for four years past. In now breaking the formal tie that has bound us together, we leave unbroken the bond of perfect sympathy, gratitude and affection, which has grown up between us.

Resolved, That we owe a deep debt of gratitude to our Associate Managers, who have so ably represented our interests in the different sections of our field of duty, and, that to their earnest, unflagging and patriotic exertions, much of the success which has followed our labors is due.

Resolved, That to the Soldiers' Aid Societies, which form the working constituency of this Association, we offer the tribute of our profound respect and admiration for their zeal, constancy and patience to the end. Their boxes and their letters have been alike our support and our inspiration. They have kept our hearts hopeful, and our confidence in our cause always firm. Henceforth the women of America are banded in town and country, as the men are from city and field. We have wrought, and thought, and prayed together, as our soldiers have fought, and bled, and conquered, shoulder to shoulder, and from this hour the Womanhood of our country is knit in a common bond, which the softening influences of Peace must not, and shall not weaken or dissolve. May God's blessing rest upon every Soldiers' Aid Society in the list of our contributors, and on every individual worker in their ranks.

Resolved, That to our band of Volunteer Aids, the ladies who, in turn, have so long and usefully labored in the details of our work at these rooms, we give our hearty and affectionate thanks, feeling that their unflagging devotion and cheerful presence have added largely to the efficiency and pleasure of our labors. Their record, however hidden, is on High, and they have in their own hearts the joyful testimony, that in their country's peril and need they were not found wanting.

Resolved, That the thanks of this Association are due to the ladies who have, at different times, served upon the Board, but are no longer members of it; and that we recall in this hour of parting the memory of each and all who have lent us the light of their countenance, and the help of their hands. Especially do we recognise the valuable aid rendered by the members of our Registration Committee, who, in the early days of this Association, superintended the training of a band of one hundred women nurses for our Army Hospitals. The successful introduction of this system is chiefly due to the zeal and capacity of these ladies.

Resolved, That in dissolving this Association, we desire to express the gratitude we owe to Divine Providence for permitting the members of this Board to work together in so great and glorious a cause, and upon so large and successful a scale, to maintain for so long a period, relations of such affection and respect, and now to part with such deep and grateful memories of our work and of each other.

Resolved, That, the close of the war having enabled this Association to finish the work for which it was organized, the Woman's Central Association of Relief for the Army and Navy of the United States, is hereby dissolved.

The meeting then adjourned sine die."

SAMUEL W. BRIDGHAM,

Secretary.

FOURTH ANNUAL AND FINAL REPORT

Moman's Central Association of Relief,

FOR THE ARMY AND NAVY OF THE UNITED STATES,

JULY 4th, 1865.

It has been suggested that we should make this, our Final Report, a short History of the Association, tracing its course from the time of its organization, April 29th, 1861, to this Fourth of July, 1865, when its work being done, the Woman's Central Association of Relief closes its career, and must live henceforth only in the memory of its friends, or as an incident in the chronicles of the Great Rebellion. But, whatever may be thought desirable hereafter, in regard to this proposition, we have determined, for the present, simply to take up the thread where we left it fourteen months ago, and, as clearly and rapidly as possible, follow the course of our work from that time to this, when the end of the war has brought with it the end of our work.

Fourteen months ago to day, at the opening of the spring campaign, our gallant Army of the Potomac was obstinately fighting its way through, the dense underbrush in those merciless battles of the Wilderness. May, with its buds and blossoms, its tender green and delicate wild-flowers, came and went; June, filled with the beauty of earth, and air and sky—the richest and loveliest month of the year—burst upon us in all her splendor. And still the fighting went on. Five weeks passed—six weeks—seven long weeks. Was there to be no end to the bloodshed and the suffering, to the anxiety and misery of those days and nights? And still that Army, with its face

set toward Richmond, pressed on-marching and fighting, fighting and marching. From the Rappahannock to Spotsylvania Court-House, from Spotsylvania to Cold Harbor, from Cold Harbor to the entrenchments before Petersburgh. shall fight it out on this line, if it takes all summer," said our Lieutenant-General, with quiet determined voice. It took all summer-it took all winter. Sherman, who had fought and marched his army from the prairies to the sea, was at hand. Sheridan, with his cavalry, had swept down the Valley. The "right time" had come, and our General gave the signal. The assault was made. Petersburgh and Richmond were evacuated! Lee's and Johnston's armies were surrendered! The war was over!

Since we last addressed you, death has again entered our little circle. At the Annual meeting in May, we missed our kind and ever-courteous President from his accustomed seat. Although in his eighty-third year, Dr. Valentine Mott was most punctilious in his attendance at our meetings, and unfailing in his interest in our work. To his influence and active support was due much of the public respect and confidence shown towards this Association at its formation. At a recent meeting it was resolved, that the vacant office in the Board, occasioned by his death, should remain unfilled, out of respect to the memory of our first and only President.

During the past year—or rather the past fourteen months there has been but little incident of note in our work. If we except our Soldiers' Aid Society Council, held in this city last November, the days at our rooms have come and gone with almost unvarying sameness. At this Council, an account of which has already been published in the Bulletin, there were 215 delegates present, representatives from Soldiers' Aid Societies in New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Jersey, Michigan, and Canada. Since then a series of articles, addressed to you, and published in the Sanitary Commission Bulletin, have kept you fully iuformed of the progress of our work.

In examining the statistical reports of the different Commit-

tees, we find some few changes in their work from previous The Committee on Correspondence reports having had in the field, at different times, nine Canvassing Agents. Also, that 369 lectures have been delivered by these gentlemen in the States of New York and Connecticut. We notice also, in this connection, an increase of 138 Contributing Societies over the number reported a year ago. The proposition, made in our Third Annual Report, to furnish those Auxiliary Societies desiring it with material at half-price, under certain restrictions, has been of mutual benefit. Our Contributing Societies at present number 813, not including those sending through Centres of Collection; of these, 375 have availed themselves Nearly one half of the sum expended for mateof this offer. rial was furnished by the Aid Societies; the rest being given by the Sanitary Commission for this purpose at our request.

For the last few weeks the Special Relief work has been greatly increased by the returning regiments passing through this city. Our rooms have been thronged daily with soldiers, in need of clothing. A new feature in this department of work, has been the systematic visiting of all the Military Hospitals in this city, and upon the neighboring islands, which has been done by our Hospital Visitor—a lady who volunteered her services for this duty. We had, before this, supplied these hospitals upon requisitions of the surgeons, or through other trustworthy agencies. The last report of our Hospital Visitor, sent in three months ago, speaks of the condition of these local hospitals as exceedingly satisfactory; sufficiently so, it is suggested, to make the services of a Hospital Visitor no longer necessary.

We call your attention to the Tables at the end of this Report. They contain a Summary of the total receipts, distributions and expenditures of the Association, in money and supplies, from its organization to the close of its work. Also, a list, as complete as we have been able to make it, of all places from which supplies have been received during the war. They number 1920.

In our Third Annual Report we spoke of "Homes," or

"Sanitaria," which the Sanitary Commission proposed to establish for our disabled soldiers. After much research and careful study of the subject, the Commission decided that the vexed question, as to whether these "Homes" were or were not needed by our American soldiery, and to what extent, could alone be determined by actual experiment. They have accordingly opened a "Home" in this city for disabled discharged soldiers. It contains at present only about forty in mates, although it has been open two months. Our latest information upon this subject, is derived from a letter written by the President of the Commission, dated May 26th, from which we quote:—

"There is, however, a class of persons made helpless by the war—some of them yet to develop the whole extent of their broken constitutions—who must be made comfortable for life in public institutions. How numerous this class will prove it is impossible even to conjecture. It does not include all the helpless, because a large proportion of them will receive the tenderest care of their own families, too happy to watch over and protect and solace them, as they should be, even though in very moderate circumstances. Let us do nothing to discourage this noble pride of domestic independence, this sacred bond of consanguinity. A large share of the invalidism of the war we shall never hear of. Our proud boys will hide their scars, and die in the sacred retirement of homes that will not parade their services or their sorrows, happy in having borne and rendered both. This, too, is every way to be admired and encouraged. But there are many foreigners who have fought for us and have all the claims of natives, since to mix their blood with ours on our battle-fields makes them our kindred, and 'of one blood,' in even a higher sense than usual. There are fatherless, motherless, homeless soldiers—blind, consumptive, limbless men, full of sorrows and of necessities, who require an absolute and permanent asylum. How many they will prove nobody can guess at this moment; but some thousands in all. The States are already moving in their behalf. It would be much better if the nation could agree to make four conveniently situated homes for this class of men, independent of State lines and either Federal or State control or support, where the spontaneous charity or mercy of the nation could maintain them in memory of their service to the Union;

317-11

where State and sectional feeling should be steadily withstood in favor of a larger and more patriotic sentiment, and the guarantee of private intelligence, energy, and integrity, in their ordering, management, and continued improvement, be offered in place of the official formalism, coldness, and fixity which sooner or later cankers all institutions of benevolence passing into Governmental hands. Such asylums, being tentative, require flexibility; should be started on a small scale, in a temporary way, feel their road, and gradually adapt themselves to their experience and the wants of the men. erect great edifices, upon any present knowledge of what our American life and spirit requires, would be to stereotype our ignorance and petrify our dreams. The nation, through some Board it has learned to trust, should take some one or more of the cheap Pavilion hospitals the war has erected, and which must soon be in the market, and having thoroughly purged it, open one or more wards at a time, testing the want and gradually developing the est system for the care and comfort and happiness of the men; making the institutions in all cases mixed, so as to destroy the horrid, deadening formality of classified asylums; putting the wholly disabled and the partially disabled together, the blind and the halt, and by the greatest diversity of industries, and light, even if useless employments, seek to keep up self-respect, drive off ennui, restore to society as many as possible, and make those who cannot be restored as little miserable as their wretched circumstances will allow. The wan and woeful countenances of many blind soldiers, many lame and helpless ones, utter strangers to homes, has already stamped an image on my mind of their long and weary future under the best care they can possibly secure, which is full of motive and full of solicitude."

With the close of the Supply Department of the Sanitary Commission, our National work, through this agency, ceases. But our work for the soldier does not cease. It has only been brought to our own doors with our returning veterans, and henceforth takes its place as among the most sacred of our home-duties. O friends! on this Fourth of July, this day of our National Independence, which now welcomes home those who have fought and won for us a Second battle of Independence and Freedom, while flags are flying and drums are beating, and the air is full of rejoicings in double celebration

of this great day, while our hearts are full of gratitude to God for having preserved our country through such great peril, shall we not best prove our gratitude by pledging ourselves anew to finish the work we have so well begun? Our soldiers They have fought the four years' fight have not faltered. through to the end. Nor have we faltered. The loyal women of America have been equally true to the cause, equally faithful to their work through these long years of anxiety and toil. They knew that peace would come with the triumph of the right. Peace has come—the right has triumphed. The war is over, and our sons and brothers are returning to us. But in the midst of our rejoicings let us remember those whose sons and brothers will never return to them, with whom the war will never be over. Let us remember those who come back to us, having left health and limb upon the battle-field, and who would gladly have giten life itself had it been required. Let us remember the last words addressed to us by one whose memory is especially present with us to day:-"With malice toward none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widow and orphans, to do all which may achieve and cherish 'a just and lasting peace among ourselves and with all nations." the love we bear our martyred President, by the memory of his love for us, we pledge ourselves to carry out this, his last And may God bless us in this resolution. request.

We have been asked to make a few suggestions in regard to the practical form this future work should assume. We do so with diffidence. The confidence, dear friends, with which we have guided you in your work heretofore, felters and hesitates as it approaches your own thresholds. For we feel that the homes, whose thoughtful love has followed the soldier hundreds and thousands of miles for four years, must surely know best how to cherish and care for him upon his return. At your request, however, we would suggest the following classification of your Home Soldier work:—

1st.—The care and support of totally disabled men who may need it; and assistance to the widows and orphans of soldiers requiring aid.

2nd.—The Collection of Claims, through the Army and Navy Claim Agencies of the Sanitary Commission.

3rd.—The finding of suitable Employment for partially disabled men.

4th.—The visiting of any neighboring Military Hospital or "Home," and the furnishing of such supplies as may be desirable.

On another page we publish a list of the Claim Agencies already established by the Sanitary Commission. Through these agencies the Commission collects any claim the soldier or his family may have against the Government, whether of Bounty, Back-pay or Pension, free of charge. In many of the smaller places, however, no regular agency will be established. We therefore suggest that *one* member of the Soldiers' Aid Society makes this his or her duty. Write for directions and blanks to the "Army and Navy Claim Agency, U.S. Sanitary Commission, Washington, D. C."

In many places, however, and we hope in most, this local work will be insufficient to absorb all the surplus energy and resources of the community. The great *National* work of the day, growing out of the war, now presents itself to us through the "American Freedmen's Aid Union," and the "American Union Commission." We enclose their circulars, commending them to your judgment.

It has been only after much earnest thought, and serious counsel, that we have concluded it is best and right for us to dissolve our Association. To undertake any part of the work for our soldiers, as indicated above, would be merely to duplicate that which is already being done through established agencies of the Commission in this city. We give the list of those agencies as they now exist:

Army and Navy Claim Agency, 35 Chambers Street.

Bureau of Employment, 35 Chambers Street.

Soldiers' Home, 45 Grove Stret.

Head-Quarters of Sanitary Commission, 823 Broadway. Apply at this office, either in person or by letter, for any desired information regarding the work of the Commission.

The end of the war has brought with it the end of our work. You, our faithful fellow-workers for four years, can well understand why we should repeat these words, and dwell upon them with mingled feelings of joy and sorrow. For while we rejoice that the horrors of war are over, that our country is not only restored to us in all its integrity, but that henceforth it is a free country—purged from the sin of slavery by fire and sword; while we are thankful that the necessity for our work no longer exists, and are glad to be released from its responsibilities and cares, yet these very conditions, dear friends, bring with them the breaking up of our intercourse, and the severing of ties whose strength we scarcely knew until now-when the hour has come for us to part. There are twenty-five large, thick books, still standing upon our shelves, in which every one of your invoiced letters, received during the past four years, have been carefully preserved. These books are our most Let those who want to understand our valuable records. work in its truest sense, read over these hundreds, or rather They will find there every phase of the thousands of letters. war as reflected in the hearts of the women at home. will find too what the relation of our Association to the people has been, and get some faint idea of the strength and endurance of the people's love for the army. They show also, as nothing else can, the love and confidence which have grown up between us during these four years of trial, and which we trust may continue to be sacredly cherished to the end of our lives.

As members of this Branch of the United States Sanitary Commission, we have held the enviable position of being brought into immediate contact, on the one hand with the earnest, active minds, and patriotic zeal of the officers of the Commission, while on the other hand our work has given us four years of constant intercourse with the most patriotic, the most earnest, and the noblest hearts and minds from among our countrywomen. For the influence of this two-fold relationship we shall never cease to be grateful. It is impossible to be engaged in such a cause, for so long a time and with such associates, without feeling one's own nature elevated and deepened.

The bond existing between the Woman's Central and the Sanitary Commission has been a peculiarly strong one, not only because we are its oldest Branch of Supply, or on account of the exceedingly agreeable and harmonious character of our intercourse, but because, with all our love and admiration of the Commission, there is a little lurking pride—we may as well confess it—that the Commission itself is, in some sense, an offshoot of our own Association. The President of the Commission has always been a member of our Board. while acting as our delegate in Washington, the first summer of the war, seeking the best channel for the distribution of our supplies, that he conceived the idea of the United States Sanitary Commission, which when moulded by the genius of Frederick Law Olmsted, also one of our earliest members, produced that wonderful organization, which has prevented and relieved untold suffering, and, as "bearer of the people's love to the people's army," has blessed both giver and receiver.

On the 24th of June 1861, the Woman's Central voluntarily offered to assume a subordinate position to the Commission, as one of its Branches of Supply. It proposed to open a central depot in the City of New York, for the collection of hospital supplies, "such supplies to be delivered solely upon requisition from the Sanitary Commission, or to agents authorized by it." The manner of obtaining these supplies was left to the Association. This agreement, of mutual benefit, has remained unbroken to the present hour.

One remarkable feature in the work of the Commission, and to which, without doubt, much of its success is due, is its discipline. We refer particularly to the discipline enforced and respected throughout its *volunteer* corps of workers. Its Branches receive their orders from the Commission, and carry them out

with as little thought of disputing them, as a captain would the orders of his colonel. And you yourselves, dear friends, with your deference to our wishes, have taught us to believe that our authority with you is paramount also. chosen to have it so, and have received directions about the work from us, in the same spirit of obedience with which we have received them from the Commission. One of your letters says, "We don't think your plan a very good one, but we shall obey orders." And others: "Tell us what to do."-"If you want anything more, tell us what it is, and how soon you want it."—"The war is over, but we mean to keep on working until you tell us to stop." So many, many letters, repeating this in every variety of expression.—"After this work is over, will you not advise us what to do next?" writes another friend. This wonderful discipline in the volunteer work of the Com-What is it but the strongest of all bonds—which is mission! love.

It is with aching hearts that we read over these last, most precious letters from you. They are too personal, too sacred, to be quoted or to be answered here. We want you to know how dependent we have been upon your sympathy and encouragement throughout our work. Don't forget us. Although the Woman's Central no longer exists, its old members wish to be remembered by you as friends, and as fellow-workers in and sympathizers with every cause that represents the welfare of our country and the interests of humanity. And may God bless us in the future as in the past and keep us in His great love and mercy.

For the Association,

LOUISA LEE SCHUYLER, ELLEN COLLINS, CHRISTINE K. GRIFFIN, M. D. SWETT, HOWARD POTTER, SAMUEL W. BRIDGHAM,

COMMITTEE.

323.

REPORT OF THE COMMITTEE ON CORRES-PONDENCE AND DIFFUSION OF INFORMATION, &c.

May 1st, 1864, to July 7th, 1865.

We report the work of this Committee for the past fourteen months, according to the following divisions:—

Organization.—Several working plans, prepared for Associate-Managers, Lecturers and Aid Societies, to facilitate their work. Continuation of Associate-Manager—organization, division of Field, &c.

Correspondence.—Constant correspondence with Associate Managers, and with newly-formed Aid Societies. During the past year this correspondence has been conducted with great efficiency, and has been of mutual benefit.

The Press.—A series of twelve articles, addressed to the members of our Auxiliary Societies, and published in Sanitary Commission Bulletin, Nos. 27 to 35, 37, 39, and 40. Special Correspondent for Soldiers' Aid of Rochester, N. Y. Contributions to newspapers and other publications.

Lecturing Department.—From March 24th, 1864, to June 1st, 1865, there have been delivered 369 lectures upon the work of the Sanitary Commission; 318 in the State of New York, and 51 in Connecticut. We have had, at different times, nine lecturers in the field, assigned to this Branch by the Canvassing and Supply Department of the Sanitary Commission. The results of this effort, so far as we can judge, have been very satisfactory.

DOCUMENT DEPARTMENT.—The following pamphlets have been distributed from May 1st, 1864, to Aug. 30th, 1865:—

NEW YORK, August 30, 1865.

Howard Potter, Treasurer.

PLACES FROM WHICH HOSPITAL SUPPLIES HAVE BEEN RECEIVED.

From May 1st, 1861, to July 7th, 1865.

The asterisk (*) marks those places which have sent supplies directly to us during the past fourteen months, from May 1st, 1864, to July 7th, 1865. The asterisk and dagger (*†) denote those which have been partially supplied with materials from this Association during the same time.

Some of the Societies in this list have never sent directly to us, but their supplies have been forwarded through our Centres of Collection. Our object is to give a correct list of the places which have, at any time during the war, sent Hospital Supplies to our soldiers through this Branch of the Sanitary Commission. Very great care has been taken to make this list accurate, with the consciousness that no opportunity offers for correction. Should there be any errors, we can only express here our sincere regrets.

| "Each Aid Society should select the | e names of those agents most accessible | | | | | | | | |

[&]quot;Each Aid Society should select the names of those agents most accessible to the field of labor, and should direct in person, if practicable, every claimant to such agent. Where this cannot be accomplished, the claimant's name and post-office address, and the name, rank, company, regiment, and service of the soldier, with the date of his discharge or death, should be taken, and a letter written at once to the agent, who will return the proper blanks, with directions for their execution."—Extract from San. Com. Circular, July 15th, 1865.
